An American Worsted.
[London Globe.]
A Yankee passenger in a train the other day was wearying his fellow travelers with "tall" stories, and remarked: "We can start with a twelve-story hotel one month and have it finished the next." This was too much for a burly Yorkshireman, who sat next to him, "Man, that's nowt," he replied, "Ah've seen 'em when ah've bin going to work just laying the foundation stones of a row of houses, and when ah've bin coming home at nite the've bin putting the folks out for back rent."

Interesting Incident Recalled.
In the beginning of Senator Blackburn's speech at the Court House, in this city, on Monday, Nov. 6th, he said when he was making his first race for Congress, he and Hon. Ed. Marshall closed their campaign in Paris and dedicated with political speeches a handsome new Court House that had just been completed in this city. On the day before the election thirty-one years afterward, the Senator, without preconcerted action on his part, found himself again dedicating a handsome new Court House in Paris with the first political speech made in it.

Underwriters Dissolve.
The Kentucky and Tennessee Board of Fire Underwriters, which has been in existence for fifteen years, dissolved at its annual meeting Wednesday and a Kentucky association will be formed. It is expected that a similar association will be formed by the special insurance agents of Tennessee. A reduction in the insurance rates on brick mercantile houses in Kentucky will also be made.

Dangers of Defective Plumbing!

Defective plumbing permits the entrance into the house of sewer gas bearing germs or contagious disease to which the human system readily succumbs. Sewer gas is not necessarily generated in the sewer, but is frequently created in the plumbing system within the home and enters the apartments through defective fixtures. If in doubt, consult us regarding the piping and repairing defective fixtures with "STANDARD" Porcelain Enamelled Ware, acknowledged as the best sanitary equipment.
